

Lesson Sequence

1. Identify and name a variety of everyday materials

2. Distinguish between an object and the material it is made from

3. Describe the properties of everyday materials

4. Identify objects that are natural and those that are manmade

5. Predict and identify if an object will float or sink

6. Explore which materials are best for different objects

Everyday materials

fabric

metal

wood

plastic

glass

Objects made from materials

clothes

spoon

chair

bottles

mirror

Properties

transparent

bendy

absorbent

soft

rough

opaque

Natural

Man-made
