Your Pentagon Consultant

Marion Rolph

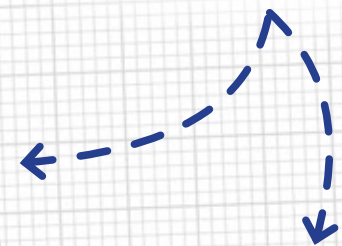

Hello, my name is Marion but everyone calls me Maz, so feel free to do the same! I am an 'outdoors' person and have loved the great outdoors from a very early age - I started athletics and cross country at 11 years old and still run nearly every day.

I love to design outdoor learning spaces so rest assured that your outdoor space will tick all those boxes: The curriculum requirements, a safe and FUN place to play and learn and above all, memories that will last for ever! I look forward to helping you with this project and many more to come.
